

Homework Return Form
MATH 151 – 507, 508, 509 Fall 2017
Texas A&M University

Quizzes and MATLAB assignments will be returned in class. There is a possibility that another student could see your grade; however, attempts will be made to minimize the chance of this occurring. By signing this form, you agree to receive your quizzes and MATLAB assignments in recitation and lab. If you refuse to sign this form, then you are responsible for picking up your assignment from the TA's office.

Additionally, since the MATLAB assignments are group projects, all members of the respective group must have this form signed to receive their MATLAB assignment back in class.
